**The Co-Chairs' Corner****Welcome  
TO THE TEAM**

A recent search was conducted to bring a Director, Quality Enhancement Plan (QEP) to the team in order to provide oversight for the QEP activities. We are pleased to announce that Dr. Janina Arrington has been named as the Director. Dr. Arrington will be responsible for scaling the QEP *Personalized Learning Pathways Plan*, which will involve the development and integration of a personalized learning approach for HCC students. Please join us in welcoming Dr. Arrington to the team!

**-Betty and Desmond****The QEP Journey**

As we have completed a draft of the QEP *Personalized Learning Pathways Narrative*, a committee comprised of colleagues from peer institutions will assess HCC's compliance with the standards contained in the Principles of Accreditation by reviewing our initial Compliance Report as well as our Focused Report responses to compliance concerns expressed in the Preliminary Report of the Reaffirmation Committee.
